

# DAHLGREN DECON HURRICANE ES

110V ELECTROSTATIC FOGGER

## PORTABLE ELECTROSTATIC AEROSOL APPLICATOR (ULV / MISTER)

### ELECTROSTATIC TECHNOLOGY

An affordable applicator, the 110V Dahlgren Decon (DD) Hurricane ES™ utilizes proven electrostatic technology to charge each droplet to provide effective application of formulations. The droplets stay separated due to the charged nature allowing uniform, even coverage on the entire target surface every time.

### DISPENSES DAHLGREN DECON

The DD Hurricane ES is ideal for use in spraying commercial and residential areas. Hotels, schools, greenhouses, warehouses, medical facilities, sanitation, germicidal treatments, and disease control programs are just a few of the markets where the DD Hurricane ES can be used.

### DD HURRICANE ES HIGHLIGHTS

- + Works with Dahlgren Decon and other water-based disinfectants
- + Precision flow rate and droplet control
- + Uniform and consistent coverage
- + Droplet size can be controlled for both ULV and residual spraying
- + Stainless Steel Metering Valve
- + No Batteries Required
- + Made in the USA

LIGHTED ON/OFF SWITCH

HIGH CAPACITY CHARGING SYSTEM

THREE (3) PRECISION NOZZLES FOR GREATER OUTPUT CAPACITY

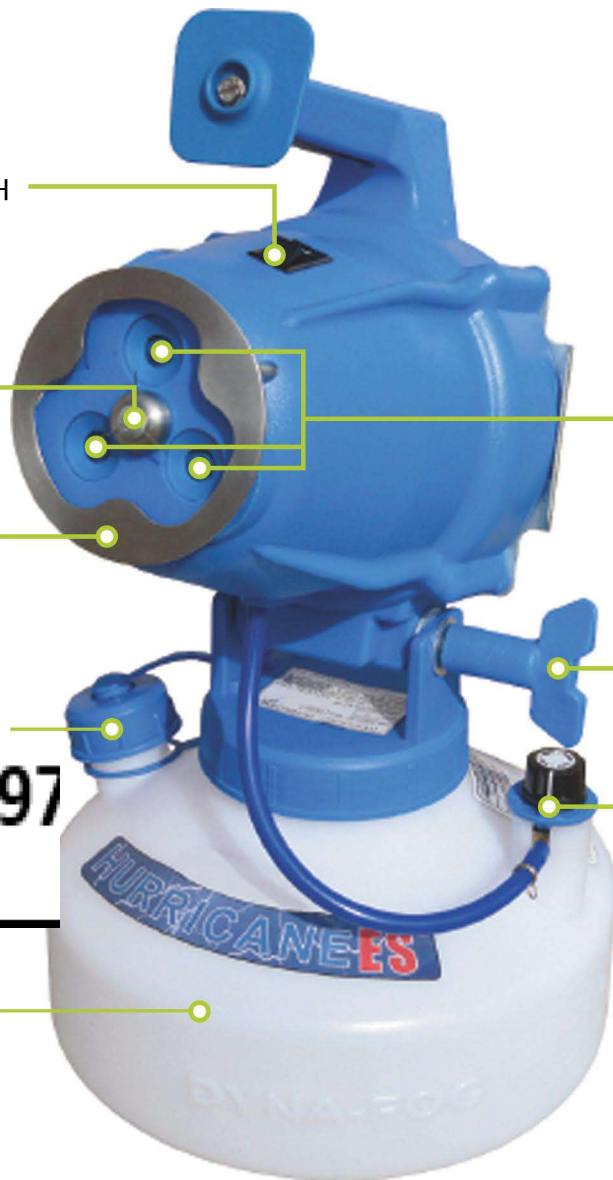

ADJUSTABLE LOCKING KNOB

FILL CAPACITY TETHER

STAINLESS STEEL PRECISION METERING VALVE WITH FILTER

+61 412 015 97

TRANSLUCENT 1-GALLON CORROSION / IMPACT RESISTANT HDPE TANK

**DAHLGREN DECON HIGHLIGHTS**

- + Neutral pH level
- + Works with detectors *no false positives!*
- + 10+ year shelf life
- + Non-corrosive / Non-flammable
- + Non-toxic by-products
- + Use & store in temperatures from -40°F to 160°F (-40°C to 71 °C)
- + Point-of-use, Tailorable Decon

Dahlgren Decon is Licensed from Department of the Navy under U.S. Patent Nos. 7,064,241, 7,718,594, and 7,829,520
